Trust Us
We Deliver

We are the only national presort provider for First-Class™ Letters, First-Class™ Flats and Standard Mail®
Leave it to us. We've got this.

We are the largest and only presort network in the US, with 36 state-of-the-art operating facilities dedicated to First-Class Mail® and Standard Mail® across the country.

As a certified workshare partner of the USPS® we process more than 14 billion pieces of mail annually. This gives us, and you, the scale and flexibility to benefit from our industry leading solutions to optimize postage discounts and increase mailsteam efficiency.

We guarantee per-piece pricing, which provides you with predictable postage expenses. Our suite of solutions drives operational efficiency with highly effective process enhancements.

Count on us to deliver.

First-Class Mail® Standard Mail®

CONSULTING, TECHNOLOGY AND INTEGRATION

Mail Exchange for First-Class Mail®

Our facilities are strategically arranged in geographic clusters and operate as Mail Exchange groups. This enables us to maximize postal discounts and in-home delivery by processing mail to the ultimate sort and inducting it closer to its final destination. Mail Exchange leverages advanced technology and proven efficiencies so that your mails gets to where it needs to be, faster and more cost effectively.

Commingling for Standard Mail®

With 5 facilities dedicated to Standard Mail®, we have the flexibility to commingle your letters, self-mailers and postcards with mail from other customers to optimize postage up to 15% while increasing the speed of delivery. Our Standard Mail® solution is available for regular and non-profit Standard Mail and can accommodate pre-barcoded and CASS-Certified™ mailpieces up to 3.3 ounces per piece.

World Class Logistics.

With 290 vehicles and 345 drivers, we transport 14 billion pieces of mail more than 10 million miles for our customers annually for convenient and reliable pick-up.

→ Scheduled First-Class Mail® and Standard Mail® pick-up

→ Efficient induction into the USPS® mailstream

→ *PostalOne!* – First class travel for business mail. This web-based mail routing system, developed by the USPS, uses a real–time electronic suite of services exclusively for business mailers. Our mail routing systems improve the delivery time of our client's mail by automating the business mail acceptance process, and linking customer's mailing information electronically with Postal service acceptance, verification and payment systems; eliminating most of the paperwork. By ground or air, your mail will be ticketed, transported, and delivered around the country in the most cost effectively and highly efficient manner.

We Add Value.

→ Faster response rates

→ Unsurpassed security throughout our logistics network

→ USPS® Global Regulation and Compliance expertise

→ Proprietary reporting process

→ Intelli*VIEW*™ for tracking and reporting

→ Improving our customer's efficiency in mail production

→ Drop ship your mail to major USPS Destination Centers nationwide

→ Dedicated account managers, highly experienced in the mailing business

→ Advanced and propriety software that supports the latest barcode functionality, including Intelligent Mail® Barcode processing, Move Updates and Corrections

WORKING WITH US COULDN'T BE EASIER.

Convenience plus concierge service.

Our easy four-step process is hassle free.

1. **Pick-up** → we pick up your mail right at your facility
2. **Quality check** → we check for address quality, weight, and proper postage
3. **Sort** → we ensure your mail is ready for postal inspection
4. **USPS® induction** → we induct your mail into the USPS® mailstream as efficiently as possible
